Subject: Establishment of Negotiated Rulemaking Committee and Public Meetings: Chemical Data Reporting Requirements for Inorganic Byproducts

EPA will be establishing a negotiated rulemaking committee (the Committee) under the Federal Advisory Committee Act (FACA). The objective of the Committee is to negotiate a proposed rule that would limit chemical data reporting requirements, under subsection 8(a) of the Toxic Substances Control Act (TSCA), for manufacturers of any inorganic byproducts when such byproducts are subsequently recycled, reused, or reprocessed. This negotiation process is required by TSCA, as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act. EPA believes the Chemical Data Reporting (CDR) rule is the only current reporting obligation under TSCA section 8(a) that is likely to affect the manufacturers of inorganic byproduct chemical substances.

EPA is also announcing the two meetings of the Committee, which will be held on June 8-9, 2017 (beginning at 9 a.m.) and on August 16, 2017, 2017 at the William Jefferson Clinton East Building, 1200 Constitution Avenue NW, Washington D.C. The public is invited to attend.

A public meeting was held on May 9 – 10, 2017 to exchange information and discuss the process of negotiated rulemaking prior to the establishment of the Committee.

Parties interested in requesting time for an oral presentation at the June Committee meeting should submit requests by email to ecdrweb@epa.gov by close of business Tuesday, June 6, in order to be placed on the list of public speakers. Written statements will be accepted throughout the advisory process; however, for timely consideration for the June meeting, statements should be supplied by email to ecdrweb@epa.gov by close of business on Tuesday, June 6. For the August Committee meeting, speaking requests and written statements should be submitted by August 9.

Information about the Committee, including information about attending Committee meetings and meeting agendas, will be posted here: <https://www.epa.gov/chemical-data-reporting/negotiated-rulemaking-committee-chemical-data-reporting-requirements>.
